

Vision

The idea was to come up with services and facilities that are not currently on offer in the community. Here are the main points of focus:

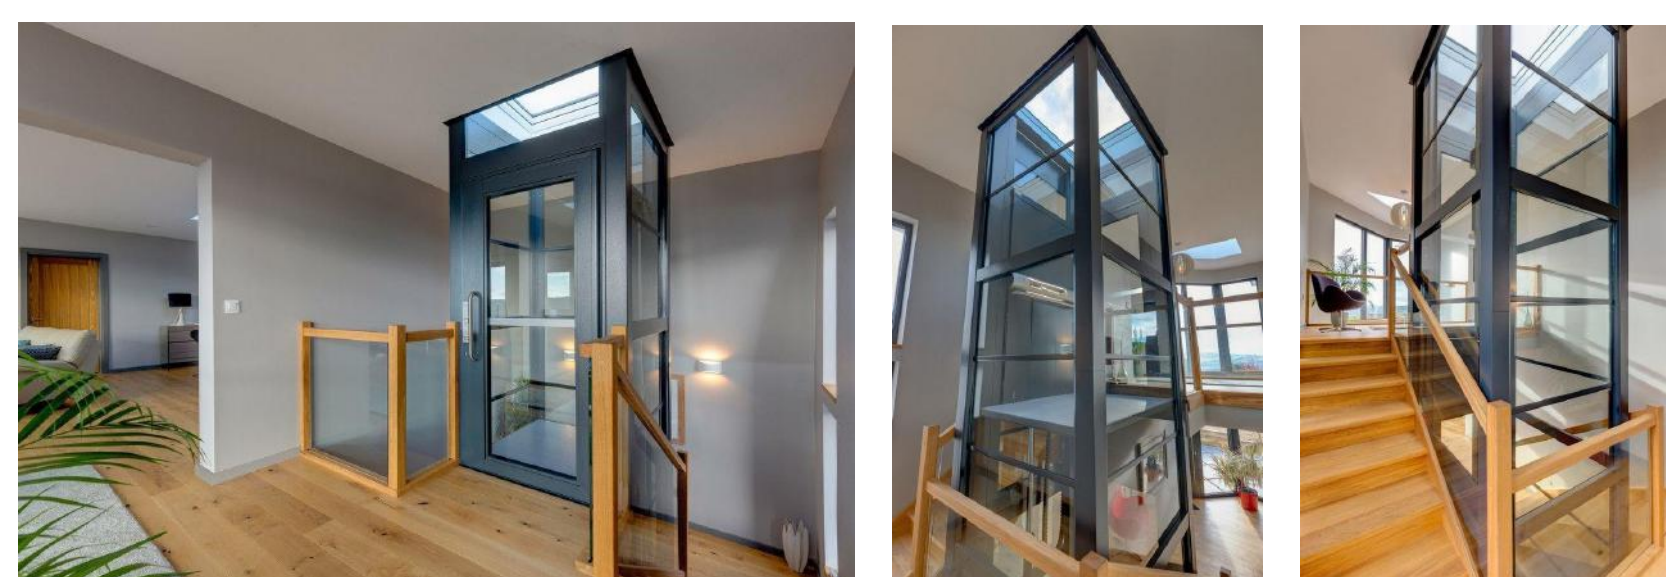

- Café/Restaurant**
 There is no café/restaurant business in the village. This is not to say this will change and so we must be adaptable and realistic in what we would offer and tailor it to a theme and offer something unique.
- Heritage Centre**
 In the 1980s, approximately 15% of the work force of Resolven were registered in the mining profession. In 2011 it decreased to 0.69%! Resolven was built upon the mining profession and so our heritage is dangerously close to being lost. We are working with Ynysfach to ensure the history of our village is kept alive by working with them to educate children regarding why, how and when Resolven came to be.
- Information Centre**
 Throughout the Neath valley there are waterfalls, nature walks, historical buildings and other tourist attractions that we, the residents of the community take for granted. Offering an information desk would help promote what we have in our area.
- Auditorium**
 The auditorium contained within the building would be restored and would be fully adaptable for the needs of the community. Retractable seating would open the auditorium into a multipurpose hall designed to hold all kinds of social events.
- Sound/Film Studios**
 There has been an assurgency in film and sound editing/production lately in South Wales. The Swansea Bay Studios is an example of how our area can utilised in the likes of large scale budget TV shows or films.
- Health and Wellbeing Centre**
 With the closure of the health centre imminent, we can offer a drop-in type centre or offer rooms for physio therapists, psychologists etc to use as they see fit.
- Information Technology/Library**
 The community council is struggling to keep the library afloat at the moment. The Resolven library used to be housed in the Resolven Miners Welfare Building and so we would like to offer space for it to come back.

Retractable Seating

Flexible and adaptable space allowing it to accommodate a range of functions and events.

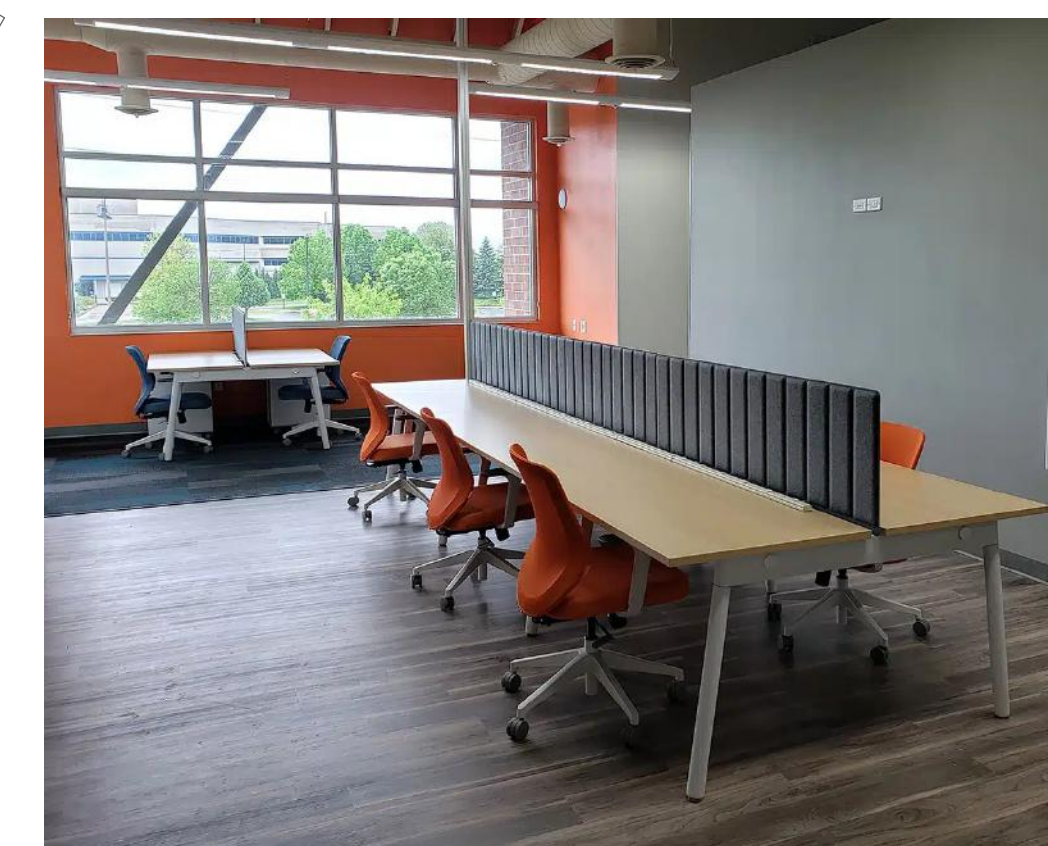

Platform Lift

Extendable Stage Area

Mirrored Wall with Ballet Barre with Curtain Screen

Hot Desk/Co-Working Space
